Sustained-Engagement Zoom-In — Top 8 by Volume & Active Span

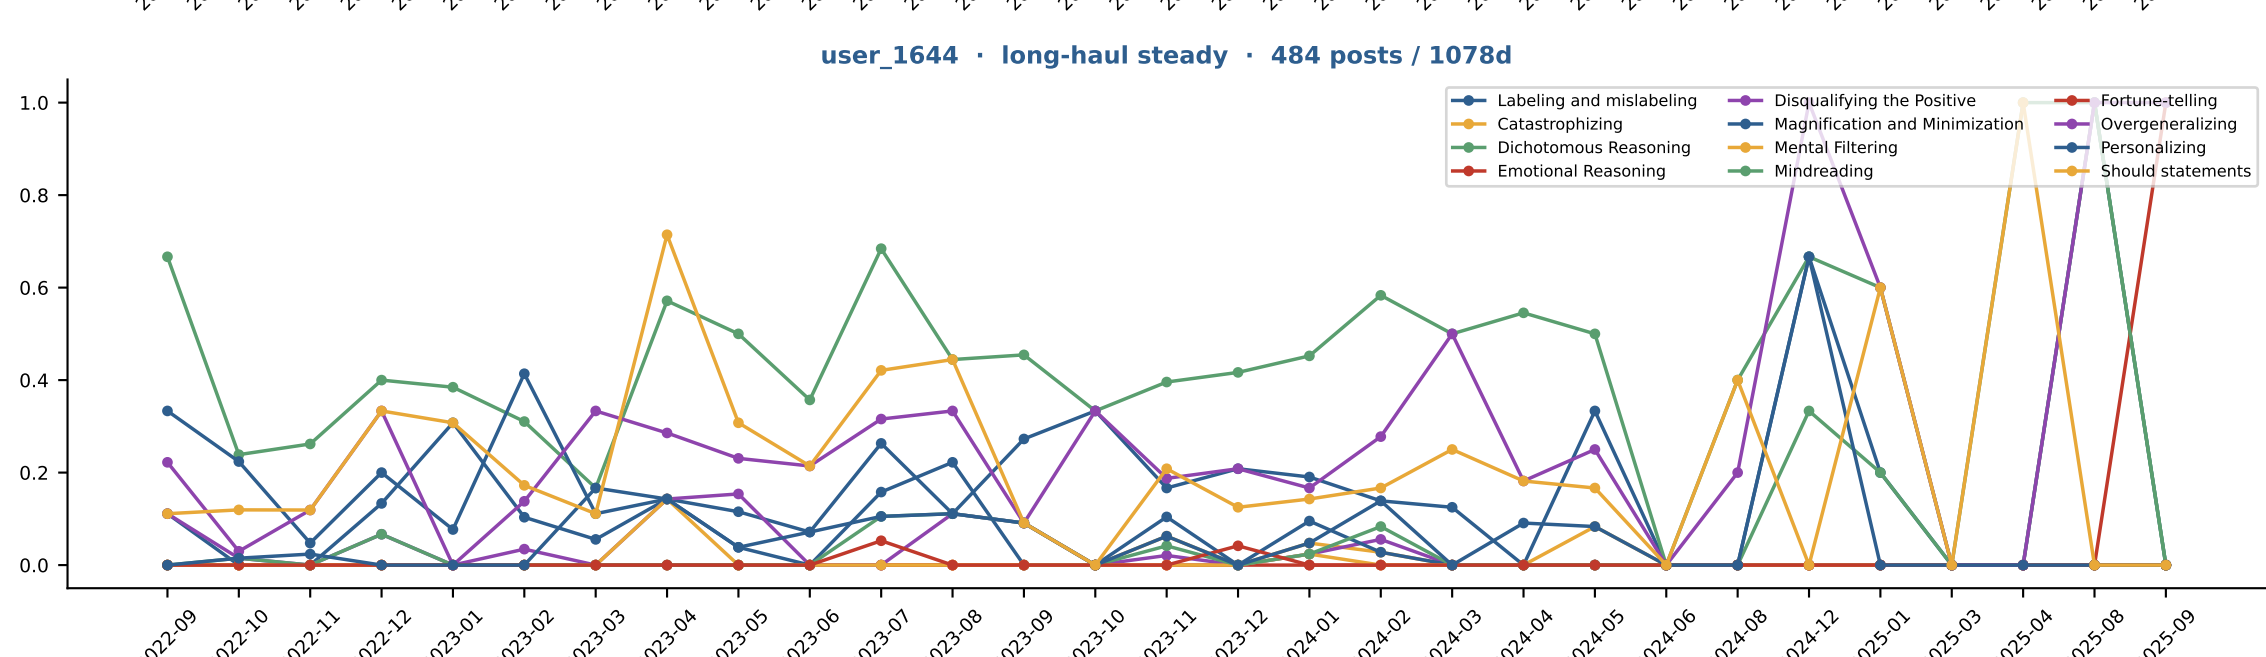

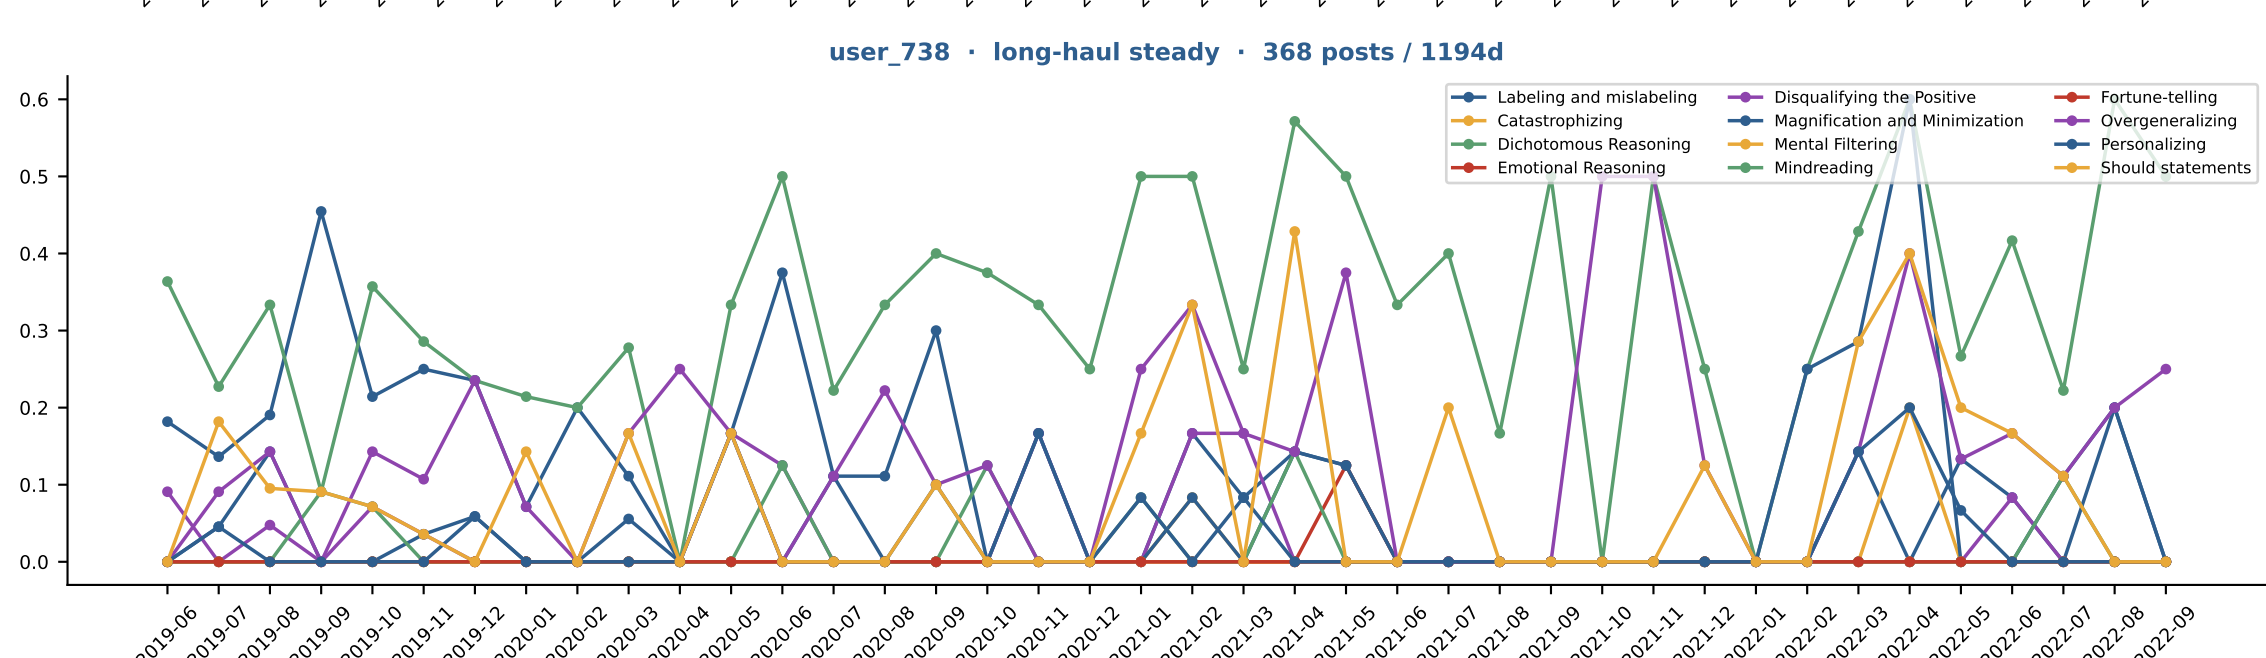

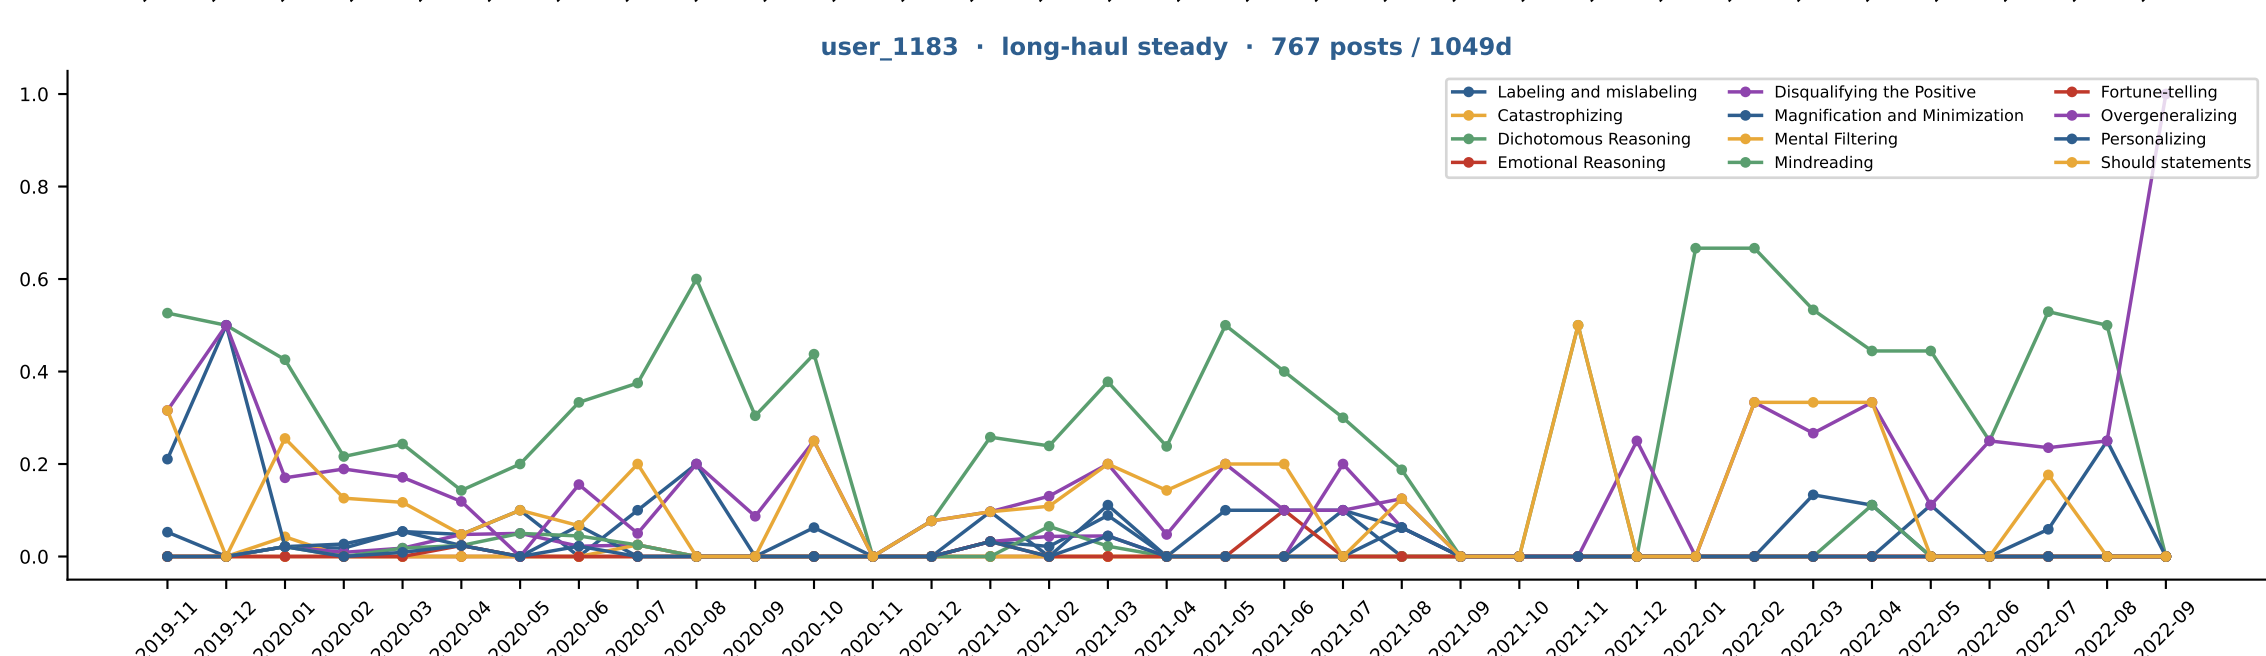

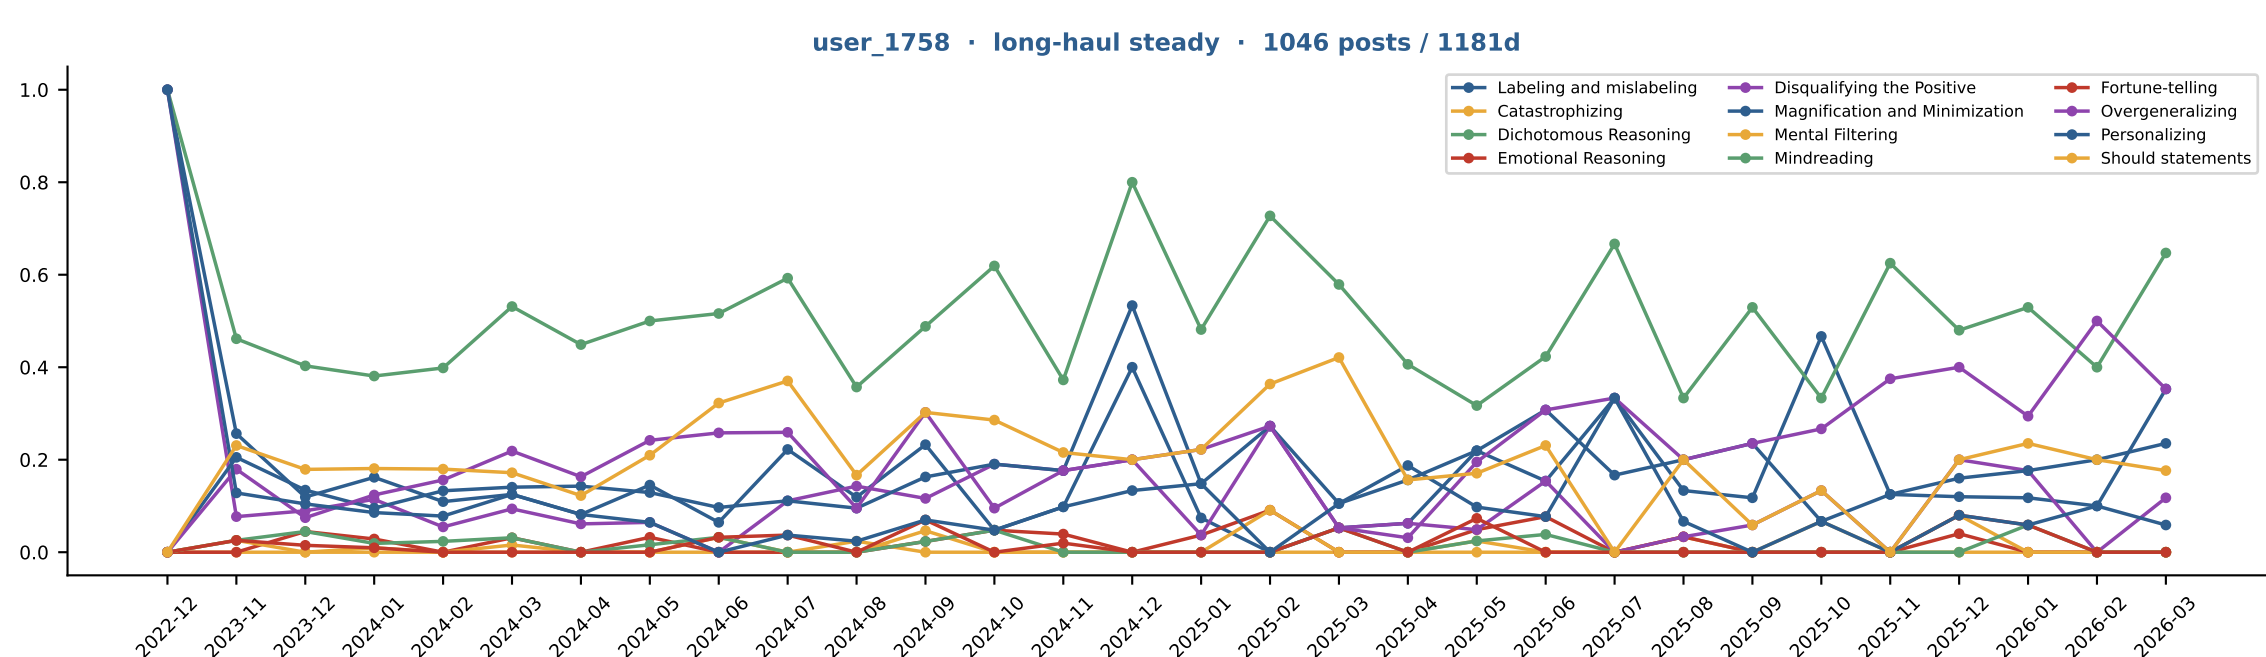

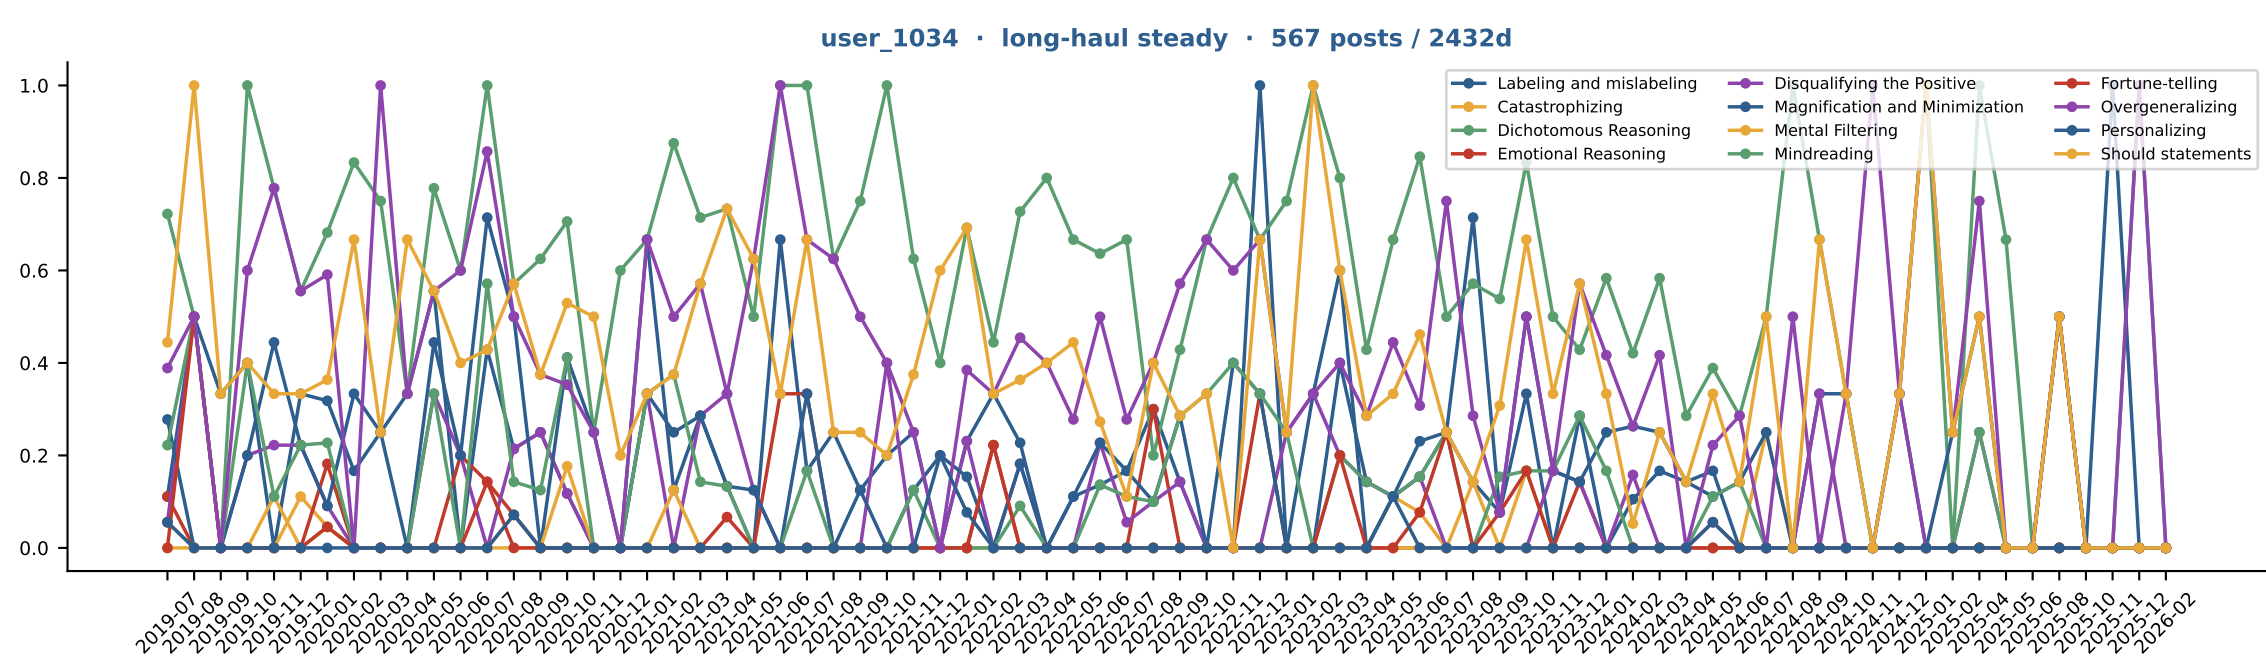

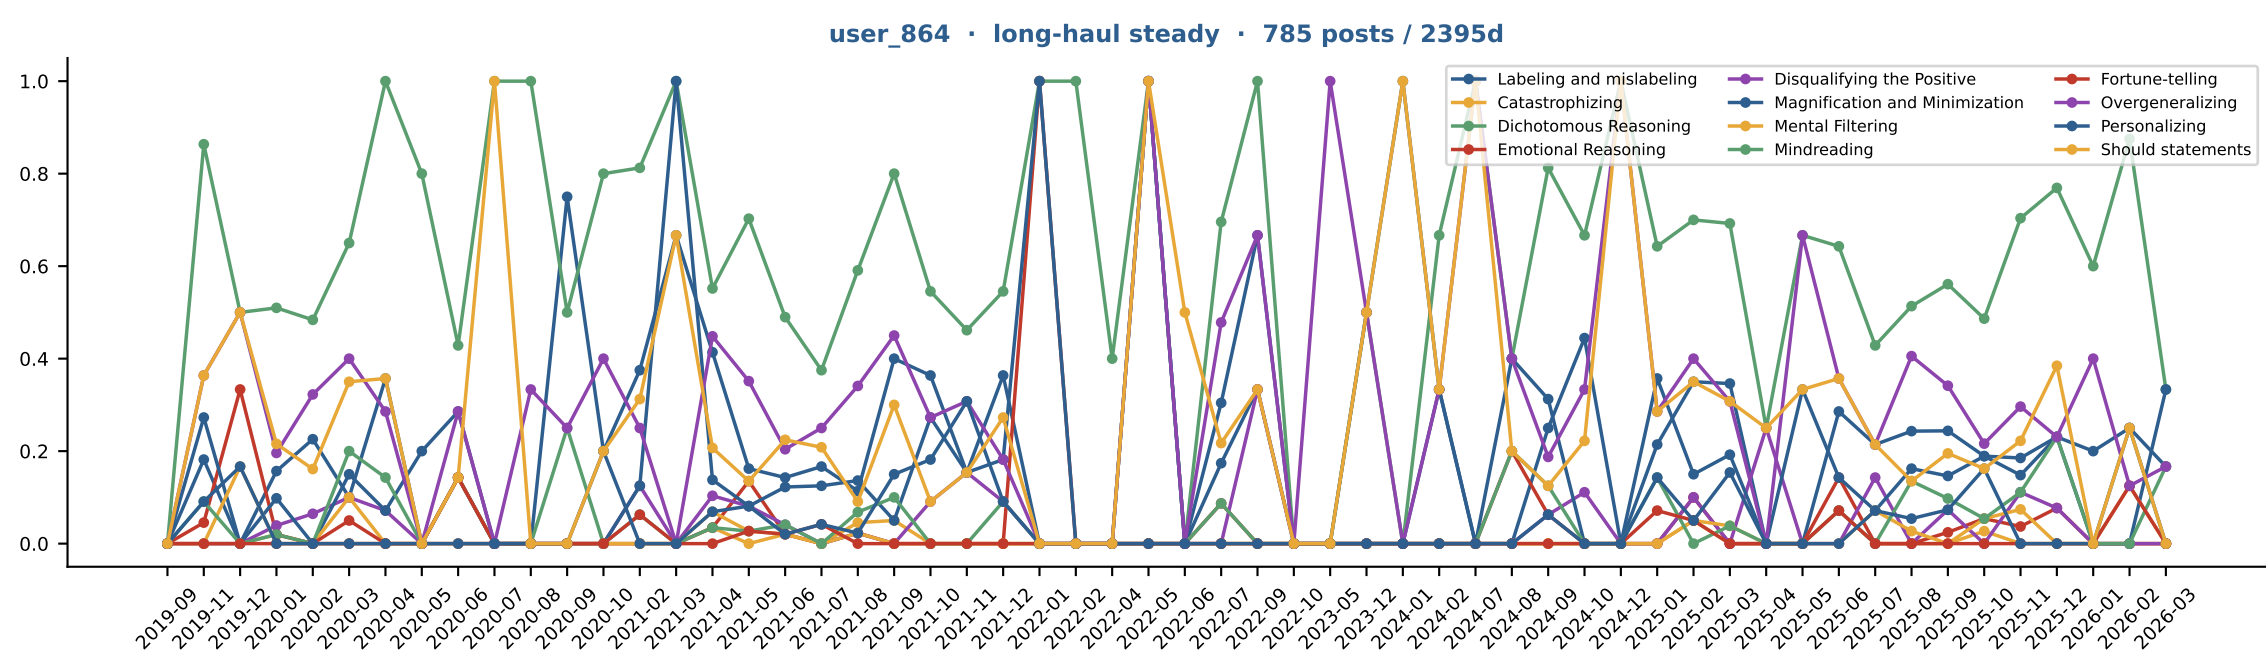

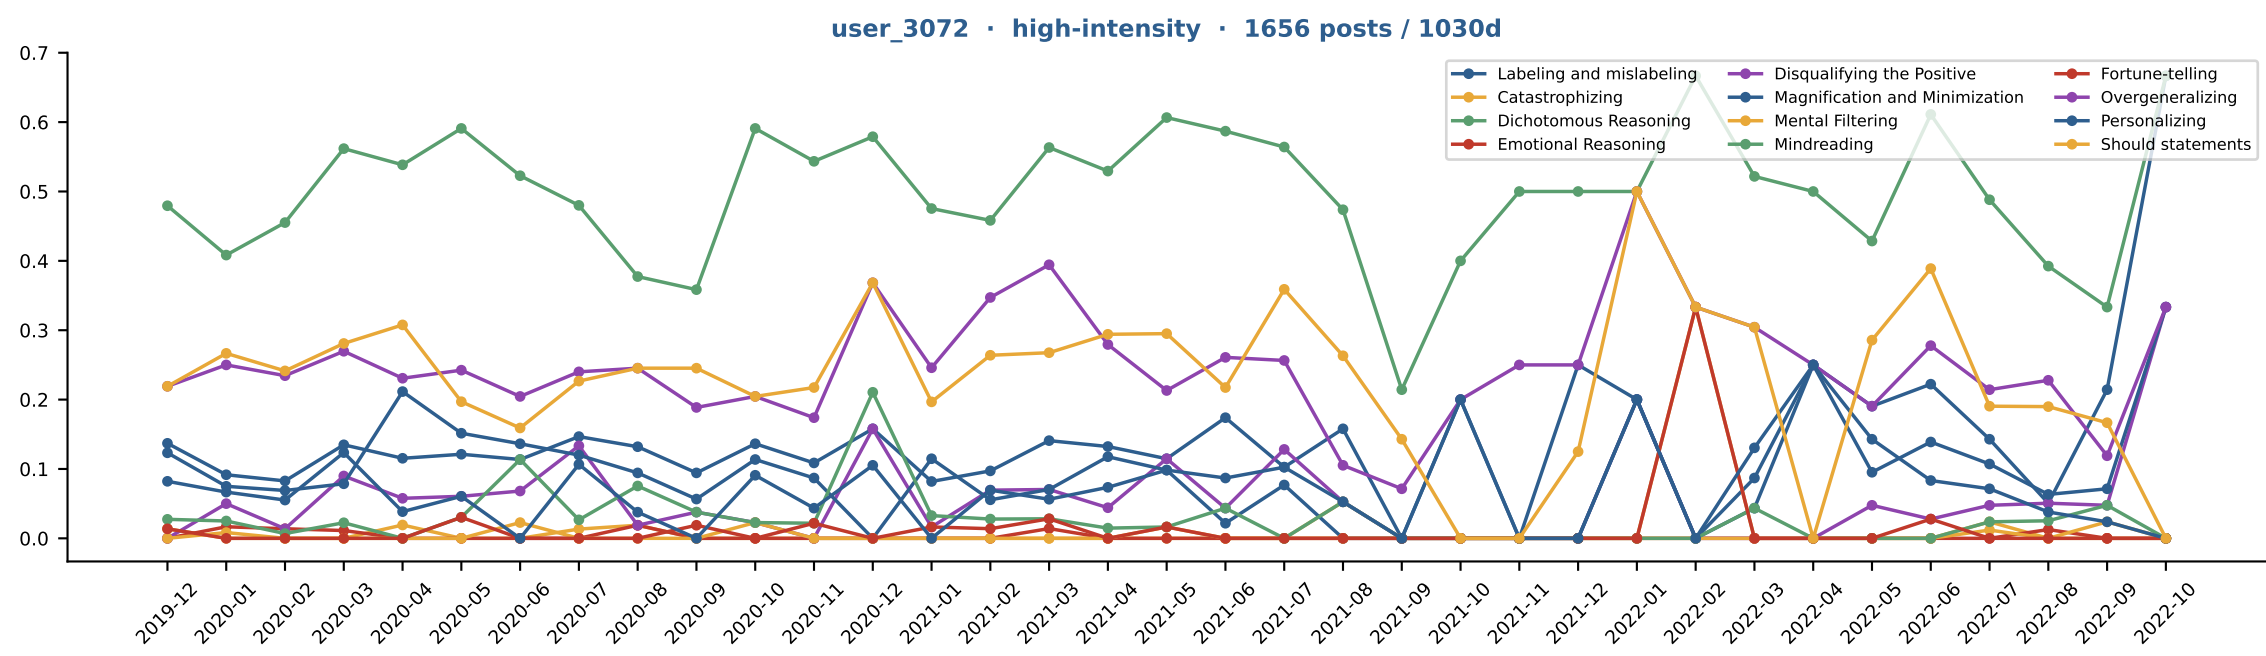

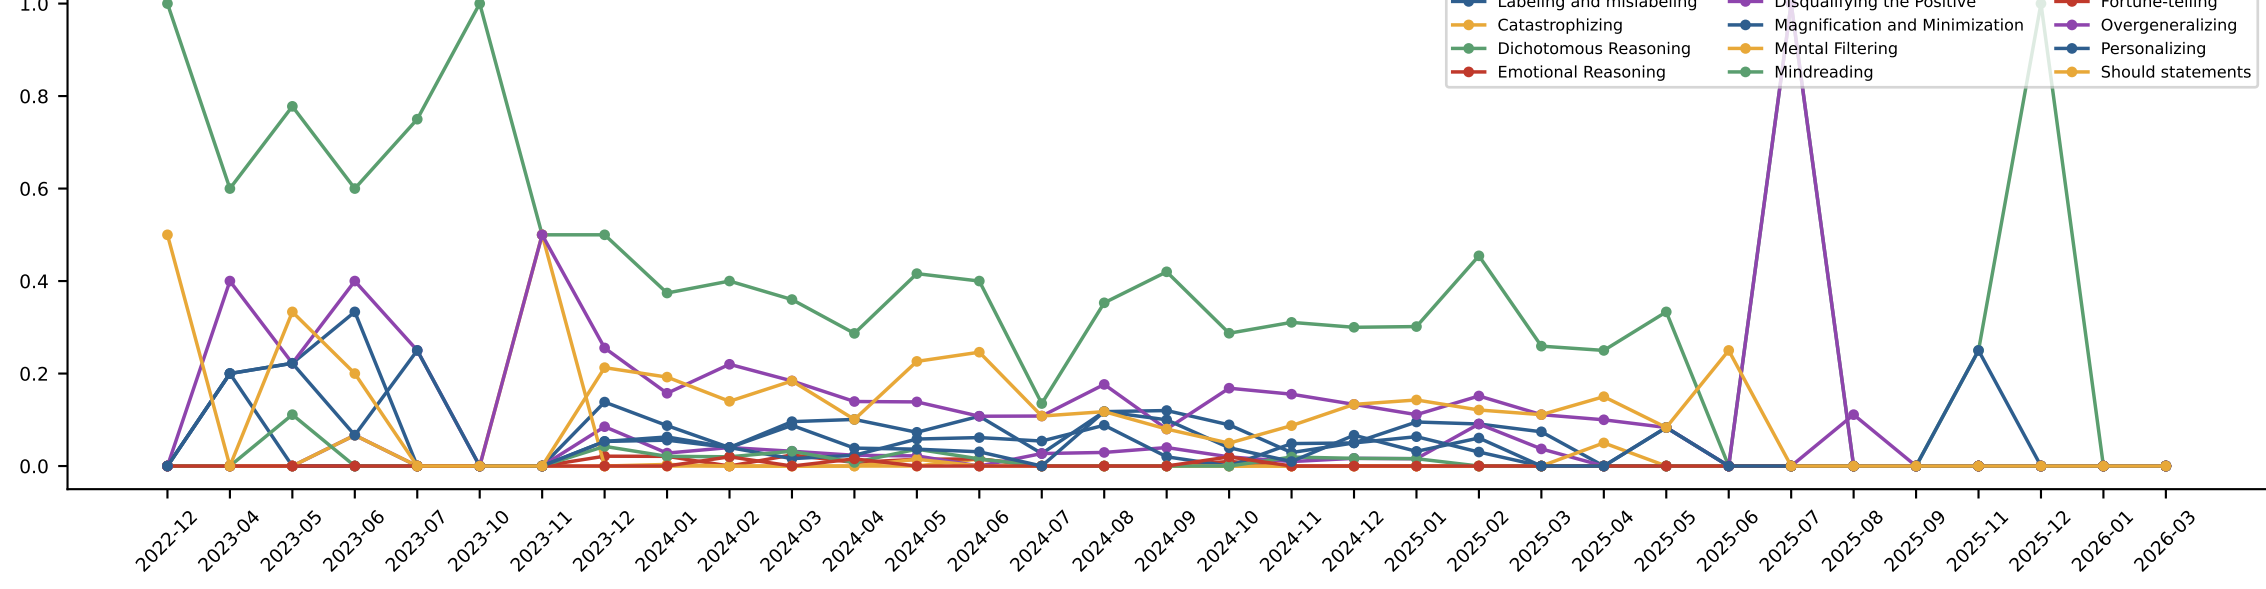

Selected Users — Sustained Engagement (high post volume AND long active span)

User	Posts	Active days	Posts / active month	Shape
user_1772	1486	1160	38.99	high-intensity
user_3072	1656	1030	48.94	high-intensity
user_864	785	2395	9.98	long-haul steady
user_1034	567	2432	7.1	long-haul steady
user_1758	1046	1181	26.96	long-haul steady
user_1183	767	1049	22.26	long-haul steady
user_738	368	1194	9.38	long-haul steady
user_1644	484	1078	13.67	long-haul steady

Selection ranks each user on post volume and active-span percentiles and takes the top by their average. Shape splits the group by posting cadence (posts per active month): high-intensity = at least twice the group's median cadence (bursty); long-haul steady = a lower cadence sustained over a long span.
Moderators are excluded upstream. The pages that follow track each user's CDS and LIWC markers over their months of activity.
